

On Beyond Calculus

Rebekah Yates

Houghton College, Houghton, NY

January 9, 2016

- Using Math to Win Games
- The Impossibility of Fairness: The Mathematics of Voting
- Sizzling Sierpinski! Patterns of Punctured Pyramids and other Fun Fractals!
- Keep Your Secrets Safe with Math (Cryptography)
- **To Infinity and Beyond**
- Getting an Angle on the Area of Spherical Triangles
- **The Road Best Traveled: The Mathematics of Getting There and Back Again**
- The GOLD Standard of Beauty According to a Mathematician

To Infinity and Beyond

- finiteness and one-to-one correspondence
- infiniteness
- cardinality
- examples of countably infinite sets
- proof that the reals are uncountable
- quick history of Cantor

The Road Best Traveled: The Mathematics of Getting There and Back Again

- Bridges of Königsberg
- Hamiltonian circuits
- Traveling Salesperson Problem
- Algorithms: Nearest Neighbor, Sorted Edges, Brute Force

So on beyond Calculus!
