

Part I: Read and Respond (prepare for class Wednesday, February 5)

Carefully read the rest of Section 1.6 and Section 1.7, taking notes for yourself. Note that the final section of a chapter is a summary section that often gives more context for the topics of the chapter.

Review the syllabus for parts (a)–(c) that should be included in this assignment. Here are the reading questions for part (a):

Reading Question(s)

1. Exercise 1.6.5a
2. Exercise 1.6.6ab

Part II: Exercises (prepare for class for Monday, February 3)

No Part II this time, but think a little bit about Exercise 1.6.3 since we'll (continue to) work on that in class.

Part III: Problems (due Wednesday, February 5 at the beginning of class)

That's a lot of Part IIs above. We'll just do one Part III this time.

1. (I) Exercise 1.5.2
